

Employee Climate Survey

Do you know how your employees really feel?

Quality Leadership requires that you know and understand what your employees are experiencing. The MuRF Systems' Employee Climate Survey evaluates how people feel about the organization, its management, and their co-workers, etc.

Use the Employee Climate Survey with all of your employees to determine their perceptions in nine critical areas for success:

- Management Values at Work
- Personal Values at Work
- Communication
- Job Satisfaction
- Compensation and Benefits
- Corporate Climate
- Company Drive
- Workforce Retention
- Corporate Stability

The MuRF Systems' Employee Climate Survey takes approximately 15 – 20 minutes to complete and can be administered anywhere there is access to the internet. The results will help you to determine what specially targeted training needs exist within your organization.

Knowing the perceptions of your entire staff in these areas, and having specific action plans and training in place based solely on your own organization's needs will help you to create a satisfied and effective workforce.
